

Light of Cambodia

Brand Guidelines

ពន្លឺនៃកម្ពុជា — the light of Cambodia

At a Glance

Light of Cambodia is a Christ-centered nonprofit walking alongside children, families, and local leaders in rural Cambodia, sharing the hope of the gospel through long-term, relational ministry. The brand should feel warm, hopeful, rooted, and human. Sunlight over rice fields, not corporate charity.

Brand feel

- **Warm and personal.** Real photography of real people and places in Pursat.
- **Rooted.** Deep greens ground the brand; flame and marigold bring light and hope.
- **Quietly confident.** Generous whitespace, serif headlines, no visual noise.

Symbolism in the mark

- **Cross (marigold gold):** Christ at the center.
- **Flame (vermilion):** the light, the Spirit, hope.
- **Laurel of leaves (green):** growth, harvest, the rice fields of Pursat.
- **Butterflies:** new life, transformation.

Bilingual identity

The brand lives in English and Khmer. The Khmer name ពន្លឺនៃកម្ពុជា appears alongside the English wordmark in hero and formal contexts. Always set Khmer text in Noto Serif Khmer, never in a Latin font's fallback.

The Mark & How to Use It

The master asset is a full-color mark on a transparent background (`logo.png` , 500×500). On photography or dark backgrounds, always place it inside a solid white circle. The artwork sits at ~118% of the circle diameter so the laurel reads clearly (the source file carries generous transparent padding — never letterbox it).

Do

- Keep clear space around the mark of at least ¼ of its diameter.
- Minimum size: 48px / 0.5in diameter on screen and print.
- Pair with the wordmark set in Young Serif ("Light of / Cambodia" on two lines is the house style).
- Use the white-circle treatment over photos and evergreen backgrounds.

Don't

- Recolor, outline, or add effects to the mark. The logo is sacred — use the supplied file only.
- Stretch, rotate, or crop into the artwork.
- Place the full-color mark directly on busy photography without the white circle.
- Redraw the cross, flame, laurel, or butterflies.

Logo artwork colors (sampled from master file)

Cross gold

HEX #FoBo4o

RGB 240, 176, 64

Flame vermilion

HEX #D04010

RGB 208, 64, 16

Laurel green

HEX #307030

RGB 48, 112, 48

Circle white

HEX #FFFFFF

RGB 255, 255, 255

These are the colors inside the logo artwork itself. For everything else (layouts, type, UI) use the brand palette on the next pages.

Core Palette

Drawn from the logo: laurel green, flame vermillion, marigold cross, dawn light. Native color space is OKLCH (used in the website CSS); hex and RGB are the print/design equivalents.

PRIMARY

Evergreen
HEX #12361E · RGB 18, 54, 30
oklch(0.30 0.06 152)
Anchor color. Dark sections, nav, footer, headlines.

PRIMARY

Evergreen Deep
HEX #092613 · RGB 9, 38, 19
oklch(0.24 0.05 152)
Deepest shade. Text on gold, footer depths.

PRIMARY

Leaf
HEX #367341 · RGB 54, 115, 65
oklch(0.50 0.10 148)
Mid green. Accents, icons, hover states on light.

ACTION

Flame
HEX #C74E33 · RGB 199, 78, 51
oklch(0.58 0.16 34)
THE action color. Give Now buttons, key links. White text on top.

ACTION

Flame Hover
HEX #B53E23 · RGB 181, 62, 35
oklch(0.53 0.16 34)
Hover/pressed state of Flame. Never a resting color.

ACCENT

Marigold
HEX #E8AF4F · RGB 232, 175, 79
oklch(0.79 0.13 78)
Warm accent. Secondary buttons, rules, highlights, focus rings.

Usage ratio

Roughly 55% light neutrals, 25% evergreen, 10% marigold, 6% flame, 4% leaf. Flame is scarce on purpose — it must stay loud enough to carry every call to action.

Neutrals & Supporting Tones

SUPPORT Sunlight HEX #FEE5B3 · RGB 254, 229, 179 oklch(0.93 0.07 85) Pale gold wash. Gold-button hover, soft highlight panels.	NEUTRAL Background HEX #F7FBF8 · RGB 247, 251, 248 oklch(0.985 0.006 150) Default page background. Green-tinted off-white, never pure white pages.	NEUTRAL Surface HEX #EFF5F0 · RGB 239, 245, 240 oklch(0.965 0.010 148) Cards, panels, alternate sections on light pages.
TEXT Ink HEX #142A1A · RGB 20, 42, 26 oklch(0.26 0.04 152) Body text on light backgrounds. Near-black with green depth.	TEXT Ink Soft HEX #334937 · RGB 51, 73, 55 oklch(0.38 0.04 150) Secondary text, captions, metadata on light backgrounds.	TEXT ON DARK On Dark HEX #F7F2E3 · RGB 247, 242, 227 oklch(0.96 0.02 90) Primary text on evergreen. Warm cream, not white.
TEXT ON DARK On Dark Soft HEX #DAD4BF · RGB 218, 212, 191 oklch(0.87 0.03 95) Secondary text on evergreen backgrounds.	Accessibility Ink on Background = 14.6:1 (AAA). On Dark on Evergreen = 11.9:1 (AAA). White on Flame = 4.6:1 (AA, large-text safe). Evergreen Deep on Marigold = 8.2:1 (AAA). Never set Flame text on Evergreen.	Photo scrim Text over photography always sits on an evergreen gradient scrim: bottom-up fade of Evergreen Deep at ~92% → 55% → transparent by 65% height. Plus an optional marigold radial glow (Marigold at ~30% opacity) for warmth.

Type System

Headlines

Young Serif 400

A light over the rice
fields

Subheads

Young Serif 400

Walking alongside families in Pursat

Body

Alegreya Sans 400

We are a Christ-centered nonprofit sharing the hope of the gospel through long-term, relational ministry. Body text sets at 18px (1.125rem) with 1.65 line height on the web.

Emphasis / UI

Alegreya Sans 700

Buttons, labels, and strong emphasis use the bold cut.

Eyebrow labels

Alegreya Sans 700

UPPERCASE · TRACKED +4 TO +8% · FLAME OR LEAF

Khmer

Noto Serif Khmer 400/600

ពន្លឺនៃកម្ពុជា

Rules

- Young Serif has one weight (400). Never fake-bold or italicize it.
- Headlines set tight (line-height ~1.12) and are never all-caps.
- Fallbacks: Georgia/serif for Young Serif; system-ui/sans-serif for Alegreya Sans.

Sourcing

All three families are free on Google Fonts:

Young+Serif · Alegreya+Sans (400/500/700
+ italic 400) · Noto+Serif+Khmer
(400/600)

Buttons, Shapes & Photography

Buttons – always pill-shaped (999px radius)

Flame (#C74E33, white text) is the primary action, reserved for giving/donation CTAs. **Gold** (#E8AF4F, Evergreen Deep text) is secondary; hovers to Sunlight #FEE5B3. **Ghost** (2px current-color border) sits on photos and dark sections. Labels are Alegreya Sans Bold. Focus rings are 3px Marigold.

Shape language

- Cards and images: 14px corner radius.
- Buttons and tags: full pill (999px).
- The circle is a brand motif (logo circle, radial glows). No sharp-cornered boxes.
- Motion eases with cubic-bezier(0.22, 1, 0.36, 1) — soft, settling movement.

Photography

- Documentary, warm, golden-hour light. Children, families, rice fields, real ministry moments in Pursat.
- No stock-photo gloss, no posed corporate imagery.
- Crop ratios in use: 4:4.6 portraits, 4:3 project cards.
- Under text: evergreen scrim gradient (see page 5). Standalone: no filter beyond gentle warmth.

Dark sections

Full-bleed Evergreen #12361E panels are a signature move (hero, verse band, footer). Text is On Dark #F7F2E3 / On Dark Soft #DAD4BF, accents are Marigold, and a soft marigold radial glow may rise from an edge. Oversized watermark Khmer script at very low opacity is an approved texture.

One-Page Cheat Sheet

Token	HEX	RGB	OKLCH (web CSS)	Role
 Evergreen	#12361E	18, 54, 30	oklch(0.30 0.06 152)	Anchor / dark sections
 Evergreen Deep	#092613	9, 38, 19	oklch(0.24 0.05 152)	Deepest shade
 Leaf	#367341	54, 115, 65	oklch(0.50 0.10 148)	Mid-green accent
 Flame	#C74E33	199, 78, 51	oklch(0.58 0.16 34)	Primary CTA
 Flame Hover	#B53E23	181, 62, 35	oklch(0.53 0.16 34)	CTA hover only
 Marigold	#E8AF4F	232, 175, 79	oklch(0.79 0.13 78)	Warm accent / secondary CTA
 Sunlight	#FEE5B3	254, 229, 179	oklch(0.93 0.07 85)	Pale gold wash
